

Azizul Bappy

Full-Stack Developer | React · Next.js · Node.js · TypeScript

Dhaka, Bangladesh | azizulbappy6@gmail.com | +8801886899678 | azizulbappy.vercel.app

PROFESSIONAL SUMMARY

Full-Stack Developer experienced in building, launching, and maintaining web applications with React, Next.js, Node.js, and TypeScript. Delivered work across art-market research, lead generation, and review management, including CMS features, organization access controls, Stripe integrations, and production deployments. Led development in a two-person team at ArtTactic and work directly with clients to clarify requirements and explain product functionality.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, HTML, CSS
- **Frontend:** React, Next.js, responsive web development
- **Backend:** Node.js, Express.js, Nest.js, REST APIs, third-party API integrations
- **Databases & Backend Services:** MongoDB, MySQL, Firebase, Supabase
- **Payments & Access:** Stripe, payment webhooks, Google OAuth, JWT, IP-based access control
- **Cloud & Deployment:** Amazon EC2, Amazon S3, Azure, Azure Blob Storage, Docker, Nginx, VPS, SSL/TLS
- **Engineering Practices:** Git, code review, manual testing, debugging, production maintenance, database backups
- **Additional Experience:** Angular, FileMaker, PHP, C#, ASP.NET Core

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer — ArtTactic | Part-Time

Aug 2024 – Present

Next.js · Express.js · MongoDB · Azure · Azure Blob Storage

- Helped build a custom content management system and administration features for managing platform content and operations.
- Contributed to membership and protected-content functionality, including IP-based access controls.
- Maintain the platform part-time, implementing new features, resolving application bugs, and managing production server operations.

Full-Stack Web Developer — Freelance

Jan 2022 – Present

PeoplePerHour · Fiverr · Upwork

- Developed customizable lead-capture forms, website assessments, and branded client reports for Leadzea.
- Built review aggregation, analytics dashboards, and integrating external review APIs.
- Integrated Stripe payments and implemented webhook handlers for payment-related events.
- Extended an existing application built with Angular, Node.js, and FileMaker, implementing features and resolving application bugs.

Web Specialist — GuessWhoFootball | Remote

Feb 2022 – Aug 2023

JavaScript · React · Firebase · REST APIs

- Built the sports web application from scratch, developing the frontend and core game logic.
- Integrated sports-data APIs and maintained game-data updates.

- Integrated and maintained advertising networks to support application monetization.

Frontend Web Developer — Seed to BIG | Remote

Jul 2021 – Jan 2022

React · JavaScript · HTML · CSS

- Developed and maintained frontend components for web applications.
- Worked with the development team to implement responsive interfaces and update existing features.

SELECTED PROJECTS

White Glove Hiring — Recruitment Platform | In Development

TypeScript · Next.js · Nest.js · Turborepo · Redis · Docker · OpenAI · Stripe

[Project details](#)

- Developing a recruitment platform with a Next.js frontend and NestJS backend, organized in a monorepo.
- Integrating OpenAI-powered resume parsing and qualification analysis, Redis-backed background processing, and Stripe subscription billing.

Review Chaser — Review Management Platform

React · Node.js · MongoDB · Google Business Profile APIs · Docker

[Project details](#)

- Built the application from scratch with review aggregation, reputation monitoring, analytics dashboards, and automated alerts.
- Integrated external review APIs and deployed the application on a VPS using Docker, Nginx, and HTTPS.

Leadzea — Lead Generation Platform

TypeScript · React · Node.js · Supabase · Stripe

[Project details](#)

- Built a lead-generation application with customizable embedded forms, website assessments, and branded client reports.
- Implemented Google OAuth sign-in for user authentication and Stripe billing.

EDUCATION

American International University – Bangladesh

Sept 2022 – January 2027 (expected)

Bachelor of Science in Computer Science & Engineering

Major: Information Systems | Minor: Software Engineering

CGPA: 3.72

CERTIFICATIONS

- Network Essentials – **Cisco** | 2023
- Full-Stack Web Development with React – **Coursera** | 2021

LANGUAGES

- English — Fluent | Bangla — Native
